- Total Vata (V) Score: _____
- Total Pitta (P) Score: _____
- Total Kapha (K) Score: _____

Part E: Marking Scale & Result Analysis

Step 1: Calculate Your Score

Count the total number of checkmarks in each column across Parts B, C, and D.

- Total Vata (V) Score: _____
- Total Pitta (P) Score: _____
- Total Kapha (K) Score: _____

Step 2: Determine Prakriti

To find your dominant constitution (*Prakriti*), calculate the percentage of each dosha out of the total questions answered.

(Formula: Individual Dosha Score ÷ Total Questions Answered x 100 = %)

- **Eka Doshaja (Single Dosha Dominant):** If one score is significantly higher (e.g., >50%), that is your primary Prakriti (e.g., *Vataj Prakriti*).
- **Dwandwaja (Dual Dosha Dominant):** If two scores are very close to each other and higher than the third (e.g., Vata 40%, Pitta 45%, Kapha 15%), you have a dual constitution (e.g., *Vata-Pittaj Prakriti*).
- **Sama Prakriti (Tridoshaja):** If all three scores are nearly equal (e.g., ~33% each), you have a balanced constitution.

Final Analysis:

- Primary Dosha: _____
- Secondary Dosha: _____
- Determined Prakriti: _____
