FORM 7 :

INTELLECTUAL HEALTH ASSESSMENT FORM

Instructions: Please select the option that best describes your cognitive habits and abilities.

(Note for scoring: Higher scores indicate a decline or lack of intellectual stimulation).

Section 1: Cognitive Vitality & Memory (Smriti & Dhriti)

No.	Assessment Question	Options & Score
1	Have you noticed any decline in your ability to concentrate, focus, or follow complex conversations?	[ ] No / Never (0) [ ] Occasionally (1) [ ] Frequently (2) [ ] Constantly (3)
2	Do you find yourself forgetting important dates, daily tasks, or recently learned information?	[ ] Rarely or never (0) [ ] Occasionally (1) [ ] Frequently (2) [ ] Constantly (3)

3	Do you feel that your overall intellectual abilities or memory have declined over the past year?	[ ] No, they have improved (0) [ ] No change (1) [ ] Yes, declined somewhat (2) [ ] Yes, declined significantly (3)
4	How often do you engage in activities that require deep, uninterrupted concentration?	[ ] Daily (0) [ ] Several times a week (1) [ ] Occasionally (2) [ ] Rarely or never (3)

Section 2: Lifelong Learning & Curiosity (Dhi)

No.	**Assessment Question**	**Options & Score**
5	How often do you actively seek out opportunities to learn new skills, languages, or acquire new knowledge?	[ ] Regularly (0) [ ] Occasionally (1) [ ] Rarely (2)

		[ ] Never (3)
6	How often do you read books, articles, or research materials outside of your usual interests or daily routine?	[ ] Daily (0) [ ] Several times a week (1) [ ] Occasionally (2) [ ] Rarely or never (3)
7	When confronted with an opposing viewpoint, how often do you actively listen or challenge your own beliefs?	[ ] Frequently (0) [ ] Occasionally (1) [ ] Rarely (2) [ ] Never (3)
8	How often do you engage in mentally stimulating activities such as puzzles, strategic games, or creative writing?	[ ] Daily (0) [ ] Several times a week (1) [ ] Occasionally (2) [ ] Rarely or never (3)

Section 3: Problem Solving & Critical Thinking

No.	Assessment Question	Options & Score
9	How would you rate your current ability to analyze data and solve complex, unexpected problems?	[ ] Excellent (0) [ ] Good (1) [ ] Fair (2) [ ] Poor (3)
10	Do you actively seek out opportunities to learn from your mistakes or analyze your past failures?	[ ] Yes, regularly (0) [ ]Occasionally (1) [ ] Rarely (2) [ ] No, never (3)
11	How often do you engage in discussions or debates that require critical, abstract thinking?	[ ] Frequently (0) [ ] Occasionally (1) [ ] Rarely (2) [ ] Never (3)

Section 4: Lifestyle & Environment

No.	Assessment Question	Options & Score
12	Do you feel your current daily environment (work, college, or home) adequately challenges you intellectually?	[ ] Yes, appropriately challenged (0) [ ] Yes, but could achieve more (1) [ ] No, feeling stagnant (2) [ ] No, completely unfulfilled (3)
13	How would you rate your typical sleep quality, which is vital for cognitive function and memory consolidation?	[ ] Excellent / Restorative (0) [ ] Good (1) [ ] Fair / Disturbed (2) [ ] Poor / Deprived (3)

14	How often do high stress levels negatively impact your ability to think clearly or make rational decisions?	[ ] Rarely or never (0) [ ] Occasionally (1) [ ] Frequently (2) [ ] Constantly (3)

Section 5: Manasika Guna (Quality of Mind & Intellect)

This section maps directly to the three qualities of the mind. By assigning points from 0 to 3, the form logically tracks the degradation from a clear, *Sattvic* state to a lethargic, *Tamasic* state.

No.	**Assessment Question**	**Options & Score**
15	**Processing Information (*Dhi*):** How do you typically react when trying to understand a difficult or complex concept?	[ ] Calmly study until I understand it *(Sattva)* (0) [ ] Put in intense, sometimes stressful effort *(Rajas)* (1) [ ] Get restless and frequently switch tasks *(High Rajas)* (2)

		[ ] Give up quickly, feeling it is too difficult *(Tamas)* (3)
16	**Mental Control & Patience (*Dhriti*):** When working on an intellectual task, how easily are you distracted by external stimuli or emotions?	[ ] Rarely; my focus is steady and grounded (0) [ ] Occasionally; I get distracted but pull myself back (1) [ ] Frequently; my mind wanders to multiple thoughts (2) [ ] Constantly; I feel dull, drowsy, or unmotivated (3)
17	**Memory Recall (*Smriti*):** When you need to recall previously learned information during an exam or discussion, how does your mind function?	[ ] Clear, accurate, and effortless recall (0) [ ] Mostly accurate, but requires effort/prompting (1) [ ] Jumbled, anxious, or recalling incorrect details (2)

		[ ] Complete blankness, confusion, or forgetfulness (3)
18	**Approach to Knowledge:** What is your primary internal motivation for learning and seeking intellectual growth?	[ ] For truth, self-improvement, and helping others (0) [ ] For career advancement and social recognition (1) [ ] Driven by competition, pressure, or fear of failure (2) [ ] I have no desire to learn; it feels like a burden (3)

Grand Total & Ayurvedic Result Analysis

Total Score: [_____] *(Maximum 54 points)*

SCORE RANGE	PRAKRITI / DOSHA DOMINANCE	CLINICAL INTERPRETATION
< 12	**Sattva Dominant (Optimal)**	High cognitive vitality. *Dhi, Dhriti*, and *Smriti* are functioning harmoniously. The intellect is clear, focused, and capable of deep, unbiased thought.
13 - 26	**Rajasic Influence (Mild)**	Good intellectual capacity, but the mind is active, restless, or goal-driven. Prone to overthinking, mental fatigue, and occasional distraction.
27 - 40	**High Rajas / Early Tamas (Moderate)**	Significant intellectual turbulence. High stress levels impair memory and learning. Difficulty maintaining focus on single tasks.
> 40	**Tamas Dominant (Severe)**	Severe lack of intellectual engagement. The intellect is clouded by lethargy, poor memory, or delusion. Requires immediate lifestyle, dietary (*Sattvic Ahara*), and habit interventions.
